

MISSION TEAMS : FAST FACTS

WORK PROJECTS

B3 PROJECTS

These dynamic outreaches partner local community development organizations and neighborhood residents with mission teams to create safe, clean community spaces all over the 48214. B3 events promote leadership of diligent Block Captains – local leaders that create projects and guide volunteer teams in completing those projects – to board hazardous homes, clean dozens of vacant lots, and beautify public parks and spaces.

RENOVATIONS

Depending on the current need, mission teams help out with MACC church members restoring their homes or doing work on MACC buildings that we are in the process of renovating. All work done on these projects is based on the skill level of the visiting teams.

MINISTRIES

Mission teams also help out with the various needs of our ministries, including our sports program and tutoring summer camps. These tasks are a huge blessing to our staff team who serve throughout the year.
